SUMMARY

Software engineering student focused on artificial intelligence and machine learning, with hands-on experience using Python, NumPy, and pandas for data preparation and analysis. Developed a full-stack university housing application during a software engineering internship.

EDUCATION

Software Engineering **September 2023 - June 2027 (Expected)**

Malatya Turgut Özal University

- GPA: 3.43 / 4.00

EXPERIENCE

Software Engineering Intern (Remote)

Malatya Turgut Özal University, Digital Transformation Office · July 2026 – August 2026

University Housing Management System

C#, ASP.NET Core Web API, Entity Framework Core, SQLite, HTML, CSS, JavaScript

- Developed a full-stack web application for university dormitories and staff housing, enabling applicants to submit documents and track their application status online.
- Built workflows for facility officers to review applications, assign rooms, and manage occupancy.
- Implemented JWT authentication and role-based access for administrators, facility officers, students, and staff, with document access restricted to authorized users.

SKILLS

- **AI & Data** · NumPy, pandas, data preparation and analysis, machine learning fundamentals
- **Programming** · Python, C#, JavaScript, SQL
- **Backend & Databases** · ASP.NET Core, REST APIs, Entity Framework Core, SQLite
- **Web & Tools** · HTML, CSS, Git, GitHub

LANGUAGES

- English: Advanced (C1)
- Turkish: Native
- Spanish (Basic)
